### Programing languages

C# - T SQL – JavaScript - HTML  
Python(ML)

### Tools

- .NET Core y .NET Framework
- Entity framework
- LinQ
- Unit tests(XUnit)
- SQLServer
- Azure DevOps
- Git and Sourcetree
- AWS (Buket S3, Lambdas, StepFunctions)
- Amazon WorkSpaces(VM)
- FilleZilla
- Postman
- Bootstrap

### Idiom

Spanish (Native speaker)  
English (Intermediate)

## Work Experience

**Since March 2021 I have been working at Globant as DotNet Developer for Deloitte**

These months I dedicated to create new projects, new functionalities and fixes for new systems and give support to these systems and some existing systems. I worked with T-SQL(SQL Server), C# (.Net Core 3.1) (Visual Studio and Visual Studio Code) and AWS tools mainly

We use scrum methodology. In each sprint, we manage all the user stories through PBIs in Azure, which we also upload tasks to. The merges to the main branch were always done through a pull request that we reviewed and approved or commented on improvements to merge the best possible code.

We also did "Dailies" every day. And in every sprint the meetings of "Preplanning", "Planning", "Retrospective", "Refinement", etc

## Academic

**Studies up to the 5th year inclusive in electronic engineering at UTN (Córdoba, Arg)**

(2014-2018)

Programming in C language.

Programming in C++ language.

Linux operating system (Ubuntu)

**Last year student (3rd) of Software Development Technique at ISP2 (Rafaela, Arg)**

(2019-2021)

**Diploma of .Net framework in C #. (elearning.com, UTN FRRE)**

(2020)

**JavaScript course (elearning.com, UTN FRRE)**

(2020)

**Machine Learning course (UTN FRBA)**

(2020)

**Projects:** (All the projects on my GitHub accounts were made entirely by me.)
